COMMENTS, IN RE: 1,900-2,000 kHz (160m) BAND REALLOCATION

To the Commission:

COMES NOW the undersigned JAMES EDWIN WHEDBEE commenting in favor of reallocating 1900-2000 kHz to the Amateur Radio Service on a primary basis.

The Commission's tentative conclusions are correct and remaining federal and radiolocation users on these frequencies can expect us to accommodate them in a grandfathered status. The reallocation to primary status recognizes the 'facts on the ground' inasmuch as amateur service users far outnumber existing non-amateur users.

WHEREFORE, the foregoing considered, the undersigned strongly and affirmatively recommends the Commission reallocate 1900-2000 kHz to the amateur radio service on a primary basis.

Respectfully Submitted:

JAMES EDWIN WHEDBEE, M.P.A., M.Ed.
